If the Customer wishes to accelerate the movement of Grain over and above the transport resources acquired by CBH utilising the Grower Freight charges, a Surge Fee may apply.
- (e) The Customer agrees:
 - (i) that Grower Freight funded transport resources are dedicated to servicing the even movement of Grain from Receival Sites to Integrated Sites and that allocation of those resources will be made to:
 - A. maintaining the ability of the CBH storage system to continue to receive Grain from Growers;
 - B. meeting the needs of Customers exporting Grain from CBH Port Facilities in the order set out in the Shipping Stem; and
 - C. meeting the regular requirements of domestic customers; and
 - (ii) that to the extent that the Grower Freight funded transport resources will be insufficient to meet an increased exporting demand Customers may be required to pay a Surge Fee representing the increased freight rate per tonne required to increase transportation resources.
- (f) CBH agrees to make information about the Surge Fee available to the Customer to allow an informed choice whether to consent to the acquisition of additional transport resources. This information may be presented to Customers either through the CBH website or via the Shipping Stem.

- (g) If the Customer wishes to ensure that Grain is available for delivery to a Port Facility for port outturning pursuant to a Port Terminal Services Agreement, the Customer must give CBH at least 22 days written notice prior to the earliest day that the Grain will be required at Port and will submit an Export Nomination in accordance with the Port Terminal Rules.
- (h) For the purposes of this Agreement, an Export Nomination in accordance with the Port Terminal Rules is deemed to constitute notice of intention to Outturn under this Agreement but may not excuse the failure to give the required notice even if the Export Nomination is accepted at the Port Facility. If the notice required under clause 16.1(g) is not given, CBH may, but is not obliged to, use reasonable endeavours to fulfil the required transportation of Grain to the relevant Port Terminal Facility.
- (i) When the Customer submits an Export Nomination it must make a declaration as to whether the Customer wishes to use the CBH Integrated supply chain under this Agreement, or whether it wishes to arrange its own transport to Port, in relation to Capacity acquired or intended to be acquired.
- (j) The Customer acknowledges and agrees that its choice of supply chain under clause 16.1(i) will result in CBH relying on that declaration and incurring costs in acquiring transportation resources and subsequently transporting the Grain for accumulation at a Port Facility or in foregoing the opportunity to contract transport resources. Consequently, once this declaration has been made, the Customer may not change the declared supply chain to be used for shipping that Capacity, unless CBH, at its sole discretion, otherwise approves.
- (k) The Customer acknowledges and agrees that the decision to accept an Export Nomination is independent of CBH's requirement to transport Grain to a Port Facility for accumulation and shipping and that acceptance of an Export Nomination is not a commitment by CBH to the movement of grain in accordance under this Agreement. Nothing in this Agreement shall be construed such that CBH has any obligation to pay Demurrage to the Customer as a result of any delay or interruption in moving Grain from a CBH Site to CBH Port.

Site Entitlement

16.2 Freight and Movement

The Customer acknowledges that if it holds Site Entitlement, unless it has converted that Grain Entitlement to Integrated Entitlement in accordance with clause 16.3, it is responsible for organising movement of that Grain Entitlement away from the relevant Site. The Customer may:

- (a) request CBH to arrange the transport in accordance with clause 16.4; or
- (b) arrange its own transport in accordance with clause 16.5.

16.3 Conversion of Site Entitlement to Integrated Entitlement

- (a) A Customer who holds Site Entitlement may request that CBH convert all or a portion of that Site Entitlement to Integrated Entitlement. If the request is made prior to 1 February of the Ending Calendar Year, CBH will invoice the Customer and the Customer agrees to pay the differential in Grower Freight applicable to the relevant portion of Site Entitlement being converted. If the request is made on or after 1 February of the Ending Calendar Year, CBH may, in its absolute discretion, agree to the conversion request and become responsible for any required transport of the Grain.
- (b) If CBH consents to be responsible for the transportation of the Grain in accordance with clause 16.3(a):
 - (i) CBH will provide the Customer with a quotation detailing the charges for conversion for acceptance by the Customer ;
 - (ii) upon acceptance of the CBH quotation in clause 16.3(b)(i) by the Customer, CBH will invoice the Customer for the agreed charges, accept responsibility for any movement of the Grain, credit the Customer the relevant amount of Integrated Entitlement and debit the relevant amount of Site Entitlement; and
 - (iii) the Customer remains liable to pay any Site Entitlement Fees accrued to the date of conversion.

Site Entitlement and Integrated Entitlement

16.4 Customer requested movements

- (a) Following a request by the Customer to move Grain from a Site to a location outside of the CBH storage system or to transfer Grain Entitlement to another CBH Site, CBH may, in its absolute discretion, agree to arrange transport of the Grain or transfer Grain Entitlement to any location or Site specified by the Customer.
- (b) If CBH consents to arrange the transport or transfer Grain Entitlement:
 - (i) CBH will provide the Customer with a quotation detailing the applicable charges for acceptance by the Customer prior to performing any movement or transfer (as the case requires); and
 - (ii) upon acceptance of the CBH quotation in clause 16.4(b)(i) by the Customer, CBH will be responsible the movement or transfer and invoice the Customer for the agreed charges.
- (c) For the avoidance of doubt, these contestable movements will not be carried out through the Freight Fund and therefore CBH may make a margin on the freight rate obtained.

16.5 Customer arranged transporters

- (a) If the Customer arranges its own transport in accordance with clause 16.2(b), it must:
 - (i) pay for the relevant freight; and
 - (ii) if transporting to a Port Facility, arrange to transport the Grain for accumulation at the relevant Port Facility, comply with the Port Terminal Rules and Port Terminal Services Agreement obligations.
- (b) The Customer is responsible for ensuring that any transport contractor arranged by it for an Outturn arrives at a Site with the grain transportation vehicle (whether road or rail) in a clean, empty and well maintained state free from any contaminants or residue.
- (c) CBH is not obliged to inspect any grain transportation vehicle for cleanliness but if it does inspect then CBH, acting reasonably at all times, is entitled to reject the vehicle as unfit for the transportation of grain and to refuse to load the vehicle.
- (d) CBH is not liable for any Loss or Damage caused as a result of a rejection of the grain transportation vehicle.
- (e) The Customer agrees to pay CBH for any costs incurred by CBH as a result of the rejection, non-attendance or late attendance of a grain transportation vehicle.
- (f) Transporters are not permitted to clean vehicles at any Site.

16.6 Carryover positioning movements and access

- (a) CBH will liaise with the Customer prior to the Harvest Period to ascertain requirements to carryover Grain during the Harvest Period.
- (b) By the later of 15 September of the Starting Calendar Year and the date of execution of this Agreement, the Customer will provide to CBH a written estimate of forward shipping and domestic Outturning for September of the Starting Calendar Year to February of the Ending Calendar Year in respect of both Integrated Entitlement and Site Entitlement to assist with planning of the movement of old seasons' Grain direct to port during harvest or for the repositioning of old seasons' Grain into carryover positions up-country when required. Further, the Customer agrees to provide to CBH by 15 August of the Ending Calendar Year a written estimate of forward shipping and domestic Outturning for September of the Ending Calendar Year to February of the calendar year after the Ending Calendar Year.
- (c) To further assist in this process, the Customer will provide details of anticipated carryover Grain by Grade, and by Integrated Entitlement and Site Entitlement.
- (d) If access to carryover Grain will be required during a Harvest Period the Customer and CBH agree to discuss how access to that carryover Grain is to be obtained and whether alternative arrangements are necessary. CBH will use reasonable endeavours to access carryover grain provided the Customer has used reasonable endeavours to comply with this clause 16.6. CBH does not warrant or guarantee that access to carryover Grain will be possible during the Harvest Period and CBH will not be liable for any inability of the Customer to access that carryover Grain.

16.7 Stock transfer orders

Notwithstanding any other provision in this Agreement, stock transfer orders are not recognised by CBH and accordingly CBH will not request a stock transfer order and the Customer shall not require a stock transfer order prior to any movements of Grain being performed by CBH.

- 16.8 If for any reason CBH is unable to weigh the amount of Grain loaded into a Customer arranged transporter, CBH may use Average Weights to calculate the change in the Customer's Grain Entitlement.

24.1 Reconciliation and Adjustments

Subject to clauses 7.7 and 24.3, a reconciliation of the Customer's Grain Entitlement will involve:

- (a) transfer an equivalent value or quantity of the Customer's Grain from a previous or subsequent season to offset the excess Outturn; or
- (b) receive financial compensation from the Customer for the excess Outturn of Grain. The financial compensation will be based on the Fair Market Price for Grain of the relevant type and Grade for the applicable season.

24.3 Remnants and Regrading

- (a) If the Customer's Integrated Entitlement stock or Site Entitlement of a particular type and Grade of Grain is:
 - (i) in the opinion of CBH, an uneconomical parcel of grain to retain in the bulk storage system, CBH may provide the Customer with the option to remove the parcel from CBH sites within 30 days or downgrade the parcel such that CBH can commingle it with other grain to ensure efficient storage and adjust the Customer's Integrated Entitlement stock or Site Entitlement stock accordingly; or
 - (ii) between the values of -1.00 and +1.00 tonne, that Integrated Entitlement stock or Site Entitlement will be deemed NCV Grain and will be removed from CBH's stock information systems and neither party will have any liability to the other for that amount of Grain.

 - (i) the germinative quality is less than 95%; or
 - (ii) the relevant Grain is being reclassified in a season which commences more than one year after the end of the season in which the Grain was delivered to CBH (for example, malt barley delivered in the 2018/2019 season may be reclassified to feed barley at any time during the 2020/2021 season), and

the Customer's Grain Entitlement will be adjusted accordingly. CBH holds the discretion to decide whether or not to reclassify pursuant to this clause 24.3 and any such reclassification will only be conducted after consultation with the Customer.

25.6 Contribution to loss

Where any express or implied term of this Agreement places on any Party (in this clause 25.6 "**Party A**") any duty of care the breach of which would, if the duty of care were imposed by the general law rather than by such express or implied term, constitute an actionable tort against any other Party (in this clause "**Party B**"):

- (a) Party B has an obligation not to commit any negligent act or omission which contributes to any Loss or Damage it suffers or may suffer as a result by any breach by Party A of such express or implied terms; and
- (b) the liability of Party A for any such breach is limited to the direct and proximate Loss or Damage of Party B arising out of such breach, less the proportion of such Loss or Damage attributable to any breach by Party B of its obligations under clause 25.6(a).

The obligations imposed on a Party in this clause 25.6 in relation to any breach by Party A of the kind the subject to this clause are additional to, and not in derogation of, any obligation of Party B to mitigate its Loss or Damage in relation to such breach.

25.7 Conditional exclusion of Statutory Liability

This Agreement excludes to the maximum extent permitted by law any warranty or condition implied by common law, practice or statute. However in the case of those warranties under statute which may not be excluded, including the *Competition and Consumer Act 2010 (Cth)*, CBH's liability for breach of such conditions or warranties shall, to the maximum extent permitted by law, be limited, in the sole discretion of CBH, to the lesser of:

- (a) in the case of Services:
 - (i) the re-supply of the relevant Service; or
 - (ii) the payment of the cost of re-supply of the relevant Service; and
- (b) in the case of goods (including grain provided under clause 25.1):
 - (i) the replacement of the goods or the supply of equivalent goods;
 - (ii) the repair of the goods;
 - (iii) the payment of the cost of replacing the goods or of acquiring replacement goods; or
 - (iv) the payment of the cost of having the goods repaired.

For the purposes of this clause 25.7, "relevant Service" shall mean the Service in relation to the quantity of affected Grain only and does not mean the aggregate value of the relevant Service provided to the Customer.

25.8 No Indirect or Consequential Loss

Notwithstanding anything else in this Agreement, CBH will not be liable to the Customer for any Indirect or Consequential Loss arising out of or in relation to the provision of Services by CBH pursuant to this Agreement.

25.9 Indemnity and Release

The Customer hereby releases and indemnifies CBH in respect of all actions, claims and demands which may be instituted by the Customer against CBH in respect of the matters dealt with under clauses 25.4 and 25.8.

25.10 Exclusion of warranties

CBH does not represent, warrant or guarantee that any Grain received, acquired or Outturned for the Customer:

- (a) conforms to any specification as to Varietal Purity;
- (b) is free from the presence, at any level or concentration, of Pesticide Residue Contamination, Corynetoxins Contamination, Microbial Contamination, Heavy Metal Contamination or Natural Toxicant Contamination; or
- (c) is free from the presence, at any level or concentration, of Genetically Modified Organisms.

25.11 Exclusion Clauses

Notwithstanding anything expressed in or implied by this Agreement, to the extent permitted by law CBH will not be liable to the Customer for any and all Loss or Damage caused by the negligence, breach of contract, breach of statutory duty or any other legal or equitable obligation of CBH, or otherwise howsoever arising in connection with this Agreement from:

- (a) any variance in any specification as to Varietal Purity from the actual Varietal Purity of Grain received or Outturned for the Customer;
- (b) any information or advice provided by CBH in relation to whether the Outturning Quality Specifications are sufficient for any purpose including meeting any Grain quality requirements of the Customer or its customers;
- (c) the presence, in any Grain received or Outturned for the Customer, at any level or concentration, of any Pesticide Residue Contamination, Corynetoxins Contamination, Microbial Contamination, Heavy Metal Contamination or Natural Toxicant Contamination; or
- (d) the presence, in any Grain received or Outturned for the Customer, at any level or concentration of any Genetically Modified Organisms.

25.12 Indemnity

Notwithstanding anything expressed in or implied by this Agreement, to the extent permitted by law the Customer shall indemnify, keep indemnified and hold harmless CBH from any and all Loss or Damage suffered by or claimed from CBH, whether caused by the negligence, breach of contract, breach of statutory duty or any other legal or equitable obligation of CBH, or otherwise howsoever arising in connection with this Agreement from:

- (a) any variance in any specification as to Varietal Purity from the actual Varietal Purity of Grain received or Outturned for the Customer;
- (b) any information or advice provided by CBH in relation to whether the Outturning Quality Specifications are sufficient for any purpose including meeting any Grain quality requirements of the Customer or its customers;
- (c) the presence, in any Grain received or Outturned for the Customer, at any level or concentration, of any Pesticide Residue Contamination, Corynetoxins Contamination, Microbial Contamination, Heavy Metal Contamination or Natural Toxicant Contamination; or

- (d) the presence, in any Grain received or Outturned for the Customer, at any level or concentration of any Genetically Modified Organisms.

25.13 Disclaimer regarding Outturning Quality Specifications

- (a) Without limiting clauses 25.11 and 25.12, the Customer acknowledges that:
 - (i) the Services do not include any information or advice as to the suitability of the Outturning Quality Specifications for any purpose; and
 - (ii) it is exclusively the Customer's responsibility to ensure the suitability of the Outturning Quality Specifications for the Customer's purposes, including meeting any Grain quality requirements of the Customer or its customers.
- (b) The Customer must not rely on any information or advice provided by CBH as to the suitability of the Outturning Quality Specifications for any purpose, including whether the Outturning Quality Specifications meet any Grain quality requirements of the Customer or its customers and, to the extent permitted by law, CBH disclaims all liability for such information or advice.

26 INSURANCE AND RISK

26.1 Insurance

- (a) CBH will, to the extent that it is reasonably practicable, take out and keep in force an insurance policy in respect to the risk of loss or damage to the Grain whilst:
 - (i) it is held in the Sites; and
 - (ii) during transit organised by CBH from the Receival Site to an Integrated Site.
- (b) CBH will advise the Customer if it cannot gain insurance coverage as detailed above.

26.2 Transfer of risk

- (a) Subject to clause 25, the risk of loss or damage to Grain is transferred to the Customer at the point in time when the Grain exits the Outturning spout of a Site into a form of a Grain transportation vehicle with the exception of clauses 26.2(b), 26.2(c) and 26.2(d).
- (b) If the Customer has Grain loaded into:
 - (i) containers pursuant to the Container Loading Services, then risk of Grain loss or damage is transferred to the Customer:
 - A. if the Customer utilises CBH's transport services, immediately upon delivery of the container at the nominated Container Terminal; and
 - B. if the Customer does not utilise CBH's transport service, immediately upon completion of loading the container at the MGC;
 - (ii) bags and then containers pursuant to the Bagging Services, then the risk of loss or damage to the Grain is transferred to the Customer immediately upon:
 - A. if the Customer utilises CBH's transport services, immediately upon delivery of the container at the nominated Container Terminal; or
 - B. if the Customer does not utilise CBH's transport services, immediately upon completion of loading the container at the MGC; and
 - (iii) bags only pursuant to the Bagging Services, then the risk of Grain loss or damage is transferred to the Customer immediately upon loading the bags at the MGC into a form of a Grain transportation vehicle.
- (c) If the Customer utilises CBH's transport services to transfer grain from a Site to a Port Facility or MGC (as the case requires) then risk of loss or damage to the Grain remains with CBH until it is transferred to the Customer upon Outturn from the Port Facility or MGC (as the case requires) pursuant to clause 26.2(a).

- (d) If the Customer utilises CBH's transport services or other services to transfer Grain from a Site to the Customer's premises or a third party site, then risk of loss or damage to the Grain remains with CBH until the transportation vehicle (which includes road or rail transportation vehicles) arrives at the Customer's premises or the third party site, or in the case of a conveyer at the point of Outturn (unless agreed otherwise with CBH).

- (j) any production shutdown or interruption which is validly required or directed by the Commonwealth or State government or any governmental agency which is not due to the act or default of the Affected Party,

and which the Affected Party is not reasonably able to prevent or overcome, or the effects of which the Affected Party is not reasonably able to predict and take measures to avoid, by the exercise of reasonable technical and commercial diligence and prudence.

27.2 Exemption from Force Majeure

The lack of funds or inability to use any funds will not constitute Force Majeure.

27.3 Relief from performance and liability

Subject to clause 27.6, an Affected Party will be excused from performance of and will not be liable to the other party for any failure in carrying out any of its obligations under this Agreement if and only to the extent and for the time that it is prevented in whole or in part from doing so by Force Majeure.

but the settlement of strikes, lockouts, or other industrial disputes or disturbances which constitute Force Majeure will be entirely within the discretion of the Affected Party and the Affected Party may refrain from settling the strike, lockout or dispute or may settle it at such time and on such terms as it considers to be in its best interests.

27.5 Termination

If the Affected Party is relieved from performance and liability in accordance with clause 27.3 due to Force Majeure for a period exceeding 60 days, either party may terminate this Agreement with immediate effect by written notice to the other party.

27.6 Payments by the Customer

Despite any other provision of this Agreement, the occurrence of Force Majeure affecting the Customer will not relieve the Customer of the obligation to pay any amounts owing under this Agreement in relation to Services performed by CBH prior to notice being given in accordance with clause 27.4(a), including but not limited to the payment of the charges set out in Schedule 1 as modified from time to time by CBH.

28 TITLE TO GRAIN

29.2 Public Reception

If a CBH Site has a public reception, then clause 29.1(c) is modified to the extent necessary to allow the Customer to proceed directly following the commonly accepted route to the public reception but does not allow the Customer to proceed to any other part of the Site without appropriate supervision.

29.3 Site Safety

Whilst on a Site, the Customer agrees to:

- (a) follow all reasonably necessary directions of CBH personnel, including departure from the Site;
- (b) not create any hazard, or cause any contamination, on the Site; and
- (c) procure that its employees, agents or contractors comply with this clause 29.3.

30 CONFIDENTIALITY

30.1 General obligation

Subject to clause 30.2, this Agreement and all information exchanged between the parties under this Agreement or during the negotiations preceding the signing of this Agreement is confidential to the party which provided it and may not be disclosed to any person except:

- (h) if necessary or commercially desirable to be disclosed to an existing, or bona fide proposed or bona fide prospective:
 - (i) financier;
 - (ii) financier of a party or of any of its Related Bodies Corporate; or

- (c) The Customer consents to CBH disclosing Port Grain Holdings to the public pursuant to clause 30.1(k). The Customer acknowledges that whilst CBH will only disclose total Port Grain Holdings, disclosure to the public in accordance with this clause 30 may enable third parties to identify the quantities of Grain stored by a Customer at a Port using this information in conjunction with other publicly available information (including the shipping stem published in accordance with the Port Terminal Rules and Code).

30.3 CBH Grain Pty Ltd

- (a) Unless disclosure is permitted in accordance with clauses 30.1(b) to 30.1(g), or 30.1(k), CBH will not disclose any details in relation to the Customer's Grain Entitlement which may identify the Customer (or reasonably be considered to identify the Customer) to CBH Grain Pty Ltd (including any subsidiary of CBH Grain Pty Ltd), without the consent of the Customer.
- (b) The Customer's consent will be implied:
 - (i) if the Customer transfers Grain to CBH Grain Pty Ltd in relation to the relevant details for the quantum of Grain transferred;

Each party warrants and covenants to the other that there are no written or oral statements, representations, undertakings, covenants or agreements between the parties, express or implied, except as provided for in this Agreement.
- (b) This Agreement may only be amended or varied by Agreement in writing signed by both parties expressly amending this Agreement and unless the context otherwise requires, a reference to this Agreement shall include a reference to this Agreement as amended or varied from time to time.
- (c) Notwithstanding that CBH from time to time produces operational guidelines to assist customers, nothing in those guidelines shall be deemed to impliedly or expressly amend anything in this Agreement and if there is any inconsistency between any guidelines and a term of this Agreement, the terms of this Agreement shall prevail.

39 SUB-CONTRACTING

CBH may in its sole and absolute discretion:

- (a) sub-contract the whole or any part of the Services; or
- (b) otherwise engage any person to undertake any part of the Services on CBH's behalf, without notice to the Customer.

40 SEVERANCE

If any term or other part of this Agreement is or becomes for any reason invalid or unenforceable at law, the remainder of this Agreement shall continue to be valid and enforceable and such term or other part of this Agreement shall be severed or modified without affecting the remainder of this Agreement.

In any such case, CBH shall provide the Customer with a statement providing such information as is necessary to demonstrate:
 - (iii) the causal relationship between the Change in Law and the Increased Costs referred to;

- 2.1 If a Customer wishes to utilise the Domestic Outturn Services, it must provide a forecast of the Customer's usage of Domestic Outturn Service requirements (the "**Forecast**") immediately prior to the Commencement Date of this Agreement and warrant the accuracy of the Forecast. Subsequently, the Customer agrees to update the Forecast no later than 14 days before the first day of each Quarter (each a "**Forecast Submission Period**").
- 2.2 Each Forecast, shall detail:
 - 2.2.1 the aggregate tonnage per Grade;
 - 2.2.2 the aggregate tonnage per CBH port zone;
 - 2.2.3 the aggregate tonnage per Domestic Site,that the Customer intends to outturn.
- 2.3 CBH may not be able to provide Domestic Outturn Services to Customers who do not provide a Forecast in accordance with clause 2.1 and 2.2 of Schedule 2 or who request Domestic Outturn Services manifestly in excess or below those set out in a Forecast.
- 2.4 Sites will operate a core set of hours to be determined from time to time, however CBH may consider longer hours on the basis of the Customer's Outturn Request and other Site activity or if the Customer makes a request through the CBH Domestic Activity Co-ordinator.
- 2.5 The outturn services available at particular Domestic Sites may vary depending on storage capacity and segregation availability at the relevant Domestic Site and surrounding Sites, as well as the outturning capacities of the site and/or storage facility.
- 2.6 Following the close of each Forecast Submission Period, the CBH Domestic Activity Coordinator will communicate with each Customer from whom a Forecast has been received to determine whether any stock availability issues are foreseen. The Customer acknowledges that Grades at Domestic Sites may change depending on harvest activities during the grower receival period at those Domestic Sites.
- 2.7 Where the Customer has given the Minimum Notice and complied with the Forecast requirements in clauses 2.1 and 2.2 of this Schedule 2, and CBH is unable to make Grain available at a Domestic Site, an alternate site will be sought with a freight reconciliation calculated to the alternate Domestic Site on the basis of the difference in the freight between the two sites.
- 2.8 The operating hours at the alternate Domestic Sites will be by arrangement with the Customer.
- 2.9 Outturns by rail may not be available at all Domestic Sites.

3 INTEGRATED ENTITLEMENT

- 3.1 To access Integrated Entitlement from a Domestic Site, the Customer must contact CBH and request to move its Grain Entitlement to a Domestic Site.
- 3.2 Moves are conditional on the level of unnominated and non-committed Grain at that Domestic Site as well as the Grain available in the area, and the accumulated nominations received from the area making up the Customer's Integrated Entitlement.
- 3.3 If CBH agrees to a Customer request under clause 3.1 of Schedule 2, it will facilitate the necessary Grain stock and the Customer will be deemed to hold Site Entitlement at the relevant Site from the time of CBH's acceptance. If CBH and the Customer do not agree, the Customer's Grain Entitlement will remain as Integrated Entitlement and CBH will provide alternative Domestic Sites (if any).
- 3.4 Where CBH agrees to allow Site Entitlement to be obtained in accordance with clause 3.3 of the Schedule 2, CBH will provide a freight adjustment back to the Customer of 95% of the Grower Freight Differential between the relevant Port Facility and the agreed Domestic Site or at such higher rate as determined by CBH in its absolute discretion which shall not be more than the amount CBH has received or will receive for the movement of the relevant Grain. As a general rule, the relevant Grower Freight Differential will be invoiced or credited after it is confirmed no later than the Grower Freight Differential Finalisation Date.

4 PERIODS FOR OUTTURN REQUESTS

- 4.1 The minimum notice required for a domestic Outturn is:
- 4.1.1 if the proposed Outturn is less than 600 tonnes per day, the Tuesday prior to the week in which the Outturn will commence; or
- 4.1.2 if the proposed Outturn is greater than 600 tonnes per day, ten (10) Business Days prior to the date on which the Outturn will commence; or
- 4.1.3 ten (10) Business Days prior to the date on which the Outturn will commence for all Outturns by rail; or
- 4.1.4 if the proposed Outturn is from a Domestic Site which is not a Domestic Priority Site, 10 Business Days prior to the date on which the Outturn will commence, ("**Minimum Notice**").
- 4.2 Customers who provide the Minimum Notice will be afforded the best opportunity to be provided with Outturn from Domestic Site/s or alternate Domestic Site up to the working outturn capacity of that Domestic Site.
- 4.3 Outturn Requests received after this time will be considered ("**Short Notice**") and Grain will only be available if there is sufficient, uncommitted Grain and booking slots available at the Domestic Site being requested.

5 OUTTURN REQUEST PROCESS

- 5.1 If the Customer requires Grain to be Outturned from a Domestic Site they will be required to submit their initial request online via LoadNet for Marketers™ (www.cbh.com.au) with the following details:-
- 5.1.1 Commodity/Grade to be Outturned;
- 5.1.2 intended delivery destination (optional);
- 5.1.3 Contract/Release or Commodity Movement Order (optional);
- 5.1.4 Site requested for Outturn;

- 5.1.5 quantity to be Outturned;
 - 5.1.6 transport arrangements; and
 - 5.1.7 a delivery schedule.
- 5.2 If the Customer does not have access to LoadNet for Marketers™ the Outturn Request Form should be used or email notification should be given to CBH's Domestic Activity Co-ordinator.
- 5.3 When an Outturn Request is received it will be assessed by the Domestic Activity Co-ordinator who will either approve or deny the request, or liaise with the Customer for further options if there is an operational issue or the Customer has provided inadequate notice or incorrect details. Any approval may have an expiry date after which the contract / release number will be invalid.
- 5.4 When a request is approved the Customer will need to supply the contract/release or commodity movement order details to confirm the Outturn, if they have not done so previously, through LoadNet for Marketers™, by email or via an Outturn Request Form. Grain will not be released for Outturn until these details are processed and it is in the Customer's best interests to provide these to CBH in a timely manner to allow bookings for an Outturn.

6 BOOKINGS SLOTS FOR OUTTURN

- 6.1 Once an Outturn Request has been confirmed and all relevant contract/release or commodity movement order details have been processed by CBH, the Customer or transporter acting on behalf of the Customer will be able to book in with the Domestic Site to pick up the Grain provided that the following procedure is complied with:
- 6.1.1 all bookings are to be made with the Site Manager for that Domestic Site or via the CBH online booking application;
 - 6.1.2 trucks need to book slots by 1pm the day before the date of scheduled pick up; and
 - 6.1.3 if trucks are late for their time slot they will be loaded in the next available booking slot or as soon as possible.
- 6.2 If trucks fail to show up for their allotted time slot and/or fail to communicate to the Domestic Site in a timely manner cancellation fees may apply.

7 OUTTURN FROM DOMESTIC SITES

- 7.1 Once the booking is complete for a domestic Outturn and the Customer has provided a contract/release or commodity movement order, the Customer or the transporter will:
- 7.1.1 use any CBH online application for mobile devices in the manner directed by CBH or its staff from time to time, including by entering into the CBH online application for mobile devices any information in connection with the loading journey that may be directed by CBH or its staff from time to time;
 - 7.1.2 present at the Domestic Site with a clean, uncontaminated and dry vehicle for loading at the beginning of their allotted time slot;
 - 7.1.3 in instance of late arrival accept the next available time slot for loading;
 - 7.1.4 adhere to the relevant site safety rules and follow directions from CBH staff at all times; and
 - 7.1.5 if required, communicate to the Site Manager in a timely manner if they are unable to commit to their allotted time slot or require a cancellation.
- 7.2 CBH will:

- 7.2.1 weigh the truck/trailer when it presents at its allotted time slot;
 - 7.2.2 proceed to load the relevant Grain;
 - 7.2.3 weigh the Grain on Outturn using the CBH certified weighbridge in accordance with clause 11.8;
 - 7.2.4 sample the Grain in accordance with CBH's standard sampling methods set out in clause 11.7;
 - 7.2.5 provide physical documentation or via any CBH online application for mobile devices, detailing all load, weight and sample information to the transporter.
- 7.3 It is anticipated that each load will have a 1 (one) hour turnaround from the time the truck presents at its allotted time slot.

8 GRAIN UNAVAILABILITY

- 8.1 If Grain becomes unavailable at a Domestic Site without notice due to insect infestation, machinery breakdown, inclement weather or other events of similar nature, CBH will use all reasonable endeavours to notify the Customer and all relevant parties as soon as practical.
- 8.2 Alternative options will be sought and advised if Outturns are required to continue and this will be communicated the Customer.

9 DOMESTIC TRANSPORT ARRANGEMENTS

- 9.1 The Customer will be able to make its own transport arrangements for Outturn and must provide CBH with the name of its transporter on the Outturn Request as well as being required to use the Booking Procedure.
- 9.2 The Customer will also be able to utilise CBH's Domestic Transport Coordination Service, whereby CBH will coordinate the Outturn to the domestic end-user or external container packing facility as elected by the Customer.
- 9.3 As per clause 16 of this Agreement, CBH will provide the Customer with a freight rate per tonne where the Customer has indicated on their Outturn Request or liaised with CBH to organise the transport. The rate quoted will be based on full truck loads and any non-standard requests for tonnages less than the truck's volume may result in additional charges. The availability of this service is not guaranteed and will depend on the amount of notice given and the availability of resources.

10 WEIGHTS

- 10.1 CBH will take reasonable steps to minimise the inefficiencies caused from trucks being over or under loaded due to the amount of variability in weights that can occur on loading a truck/trailer in light of the nature of loading through portable equipment and general unavailability of trucks/trailers having self weighing mechanisms.
- 10.2 Whilst CBH will use all reasonable endeavours to load to the correct weight on direction of the transporter under its load plan, the following guidelines will be followed where trucks are over or under loaded:
 - 10.2.1 if the truck/trailer is less than 0.5 tonnes below the VRL on the gross weight then that will be the final weight;
 - 10.2.2 if the truck/trailer is over the VRL, CBH will provide portable machinery to bleed the rear trailer down to the VRL; and
 - 10.2.3 exceptions may be made for the final load against a contract.

11 QUALITY SPECIFICATIONS ON OUTTURN

- 11.1 Unless otherwise requested by the Customer, CBH will ensure Grain is Outturned to a standard not less than the Receival Standard applicable to the Common Stack Segregation of the Grain at the Grade that is being Outturned.
- 11.2 Customers can request specific quality requirements in line with a Quality Management Plan agreed with CBH in accordance with clause 8.1(a).

12 OUTURNS DURING HARVEST PERIOD

The Customer acknowledges that there will be restrictions on Outturns during the Harvest Period as it is in the interest of CBH, its Growers and other customers that all Grain is received into the CBH network as quickly and efficiently as possible.

13 FUMIGATIONS

- 13.1 Maintaining the quality of Grain in storage is a key service priority and CBH will endeavour to introduce shorter fumigation cycles at Domestic Sites to minimise the impact of fumigation on Grain availability.
- 13.2 Whilst Grain is under fumigation, CBH will use reasonable endeavours to ensure that the same Grade is either available from:
 - 13.2.1 an alternative storage at that Domestic Site; or
 - 13.2.2 another Domestic Site.

14 OPERATIONAL ACTIVITIES

- 14.1 Some Domestic Sites are required to undertake various operational activities during the Season and CBH will use reasonable endeavours to forward plan with minimal disruption to the Domestic Outturning Services offered by CBH.
- 14.2 Where operational activities conflict with proposed Outturns, CBH will alter the availability of Grain or determine an alternative Domestic Site for outturn as required to minimise the impact on Domestic Outturning Services.

SCHEDULE 3

Load Rejection Dispute Procedure

1 DISPUTE PROCEDURE

- 1.1 If the Customer wishes to reject any load Outturned by CBH on the basis that the load fails to meet the Receival Standards, then the Customer must cease further discharge and hold the vehicle or conveyor (as applicable) and any grain at the point of detection.
- 1.2 The Customer must then give notice of the rejection to the CBH “Co-ordinator – Domestic Market” by email to CBH.domestics@cbh.com.au or by telephone to 08 9237 9795 (with any notice given orally by telephone to be immediately followed by confirmation of the rejection in writing by email).
- 1.3 CBH’s “Co-ordinator – Domestic Market” will, upon receiving notice of rejection, co-ordinate the procedure as below.
 - 1.3.1 A CBH representative will attend at the point of delivery to perform possible analysis of the load in question and work with the Customer to resolve the issue on site. The CBH representative will confirm sampling procedures in use by the end user are relevant and comparable to those used by CBH.
 - 1.3.2 If the dispute cannot be resolved on site then CBH will obtain three representative samples of the load for further analysis. The CBH representative is to collect the samples as follows:
 - a. one sample is to be sealed. This sample will be available for testing by a mutually agreed third party (“**Third Party Test Facility**”) if the results from AGC are disputed;
 - b. a second sample is to be collected for testing at AGC; and
 - c. a third representative sample is to be left with the Customer.
 - 1.3.3 MGC (or the closest Receival Site) will receive the grain back and the Outturn will be reversed. Replacement Grain can be arranged on the basis that costs will be allocated to the Party at fault when the result is determined.
 - 1.3.4 The second sample referred to in item 1.2.2 of Schedule 3 will be sent by CBH to AGC for testing. If the Customer disputes AGC’s test results, the Customer must give notice to CBH within 15 Business Days of the date the results were issued by AGC. If the Customer does not give notice within 15 Business Days, then the load will be deemed to meet the Receival Standards and the Customer will be liable to CBH for the costs set out in item 1.3.5 of Schedule 3. If the Customer gives notice within 15 Business Days, CBH will send the first sample to the Third Party Test Facility for testing. The test results of the Third Party Test Facility will be final and binding on CBH and the Customer, except in the case of fraud or manifest error on the part of the Third Party Test Facility. If results obtained from the Third Party Test Facility show that the Grain does not meet the Receival Standards, CBH will be liable for the costs set out in item 1.3.6 of Schedule 3.
 - 1.3.5 If the Grain meets the Receival Standards as determined in accordance with item 1.3.4 of Schedule 3, the Customer is responsible for all reasonable costs incurred by or on behalf of CBH, including the freight, storage, Outturn, NGR, time and travel expenses of the CBH representatives involved in resolving the dispute and costs of additional testing.
 - 1.3.6 If the Grain fails to meet the Receival Standards as determined in accordance with item 1.3.4 of Schedule 3, the Site that Outturned the Grain will cover direct costs in freight for the rejected load and for the reasonable time and travel expenses of the CBH representatives involved in resolving the dispute. Weight time and freight charges are to be paid by CBH.

- 1.4 A load can only be validly rejected on the basis that it does not meet the relevant Receival Standards. If CBH has Outturned the Grain to the minimum relevant Receival Standard CBH will not be held liable for load rejections.

SCHEDULE 4 NON-GROWER RECEIVAL GUIDELINES

1 PRE-DELIVERY

- 1.1 Subject to clause 1.2 of this Schedule 4:
- 1.1.1 the Customer must contact CBH to request a Site be made available to receive the grain and provide details of the proposed delivery of Grain to that Site (the “**Delivery Plan**”);
 - 1.1.2 the Customer must accurately complete and provide CBH with a Pre-Delivery Sample Analysis Form, paying particular attention to completing the section marked 'Treatment';
 - 1.1.3 if requested by CBH, the Customer must provide a one kilogram representative sample from each source of Grain that the Customer intends to deliver to the Port Terminal Facility for placement into Storage. If the grain is from more than one storage type, the Storage identification must be clearly marked on each sample;
 - 1.1.4 the Pre-Delivery Sample Analysis Form with the sample/s for chemical and insect analysis must be couriered direct to: “Australian Grains Centre, 700 Abernethy Road, Forrestfield WA 6058”;
 - 1.1.5 CBH will use all reasonable endeavours to provide the Customer with the sample results within 2 Business Days of the sample being received;
 - 1.1.6 each acceptable sample analysis will permit the Customer to deliver the Grain to the agreed Site during the agreed time;
 - 1.1.7 if the sample contains any manageable Contaminants, the Grain must be treated before a new sample is presented for testing. The costs of assessing the new sample will be paid by the Customer.
- 1.2 CBH may waive compliance with some or all of the obligations in clause 1.1 of this Schedule 4 provided that the Customer makes an appropriate declaration in respect of each load of Grain delivered to the agreed Site (including without limitation that all warranties set out in clause 4.5(a) are true and correct).
- 1.3 The Delivery Plan provided in accordance with clause 1.1 of this Schedule 4, must:
- 1.3.1 detail whether deliveries of Grain to the agreed Site are to be made by road or rail, subject to the operational capabilities of the relevant Site to receive such deliveries, and the Sites, Grain type, Grades, daily volumes, dates of delivery, method of delivery and whether the Customer wishes to acquire Integrated Entitlement or Site Entitlement; and
 - 1.3.2 following consultation with CBH, be amended to enable the timetable for deliveries to the agreed Site to fit in with other site activities.
- 1.4 All delivery and unloading points, including any discharge grids, storage locations, and the movement of Grain following discharge will be nominated and determined by CBH in its sole discretion.

2 DURING DELIVERY

- 2.1 Upon arrival of each truck load containing the Customer’s Grain, CBH staff will assess the VRL of the truck delivering loads to the agreed Site. Each truck is to have a valid permit to meet the presented combination and the gross weight tendered. Unloading of non-compliant vehicles will be refused and those vehicles will be required to leave the agreed Site.

- 2.2 The indicative grade, variety and other characteristics of the Grain delivered are to be declared in writing by the Customer by no later than the time of delivery and CBH takes no responsibility for the accuracy, completeness or veracity of the information relating to the Grain declared by the Customer. If the load is found to be contaminated with Level 1 or Level 2 Contaminants or showing signs of insect infestation or activity the load will be rejected. CBH shall advise the Customer or nominated representative of the rejection as soon as practicable and in any event before the end of the day following the day of delivery.
- 2.3 If a load is found to be contaminated with a Level 1 Contaminant, the Customer will not be permitted to deliver that load or any additional load to CBH Sites until the Customer has provided CBH with evidence in the form of independent expert verification that there is no further risk of Contamination. Alternatively, the Customer may request CBH to arrange at the Customer's cost for independent expert verification that there is no further risk of Contamination.
- 2.4 Independent expert verification may involve identifying the source site of contamination and the taking of steps by the Customer to ensure that the source site of contamination is not the source site for any future deliveries or that the Customer takes remedial action to ensure that the contaminant has been effectively removed from the source site of contamination.
- 2.5 If a load is found to be contaminated with a Level 2 Contaminant the Customer will not be permitted to deliver that load or any additional load to CBH Sites until the Customer has provided CBH with evidence that the Customer has taken remedial action to ensure that the contaminant has been effectively removed.
- 2.6 Following completion of the steps outlined in clauses 2.3 and 2.4 above, the Customer must produce a new representative sample from the source site of the contamination and complete the processes specified under clause 1 of this Schedule 4 confirming the absence of contamination, prior to recommencing delivery.
- 2.7 Any remedial fumigation required following delivery of contaminated grain shall be performed by CBH and the Customer shall pay the Remedial Fumigation Service Fee as prescribed in the Fees and Charges Schedule.
- 2.8 All delivery and unloading points, including any discharge grids, storage locations, and the movement of Grain following discharge will be nominated and determined by CBH in its sole discretion.
- 2.9 All road vehicles delivering Grain to a Site must be registered with CBH and CBH is not obliged to receive Grain from a road vehicle in excess of its relevant mass limits whether prescribed by law, or amended by HMMS or any other relevant scheme.

3 SAMPLING

CBH will sample Grain offered for Delivery in accordance with its standard sampling procedures from time to time and, subject to clause 4 of this Schedule 4 ("Receival Quality Disputes"), **You** agree to be bound by the results of those sampling procedures.

4 RECEIVAL QUALITY DISPUTES

4.1 Dispute Procedures

The Customer agrees:

- 4.1.1 to comply with the dispute resolution processes in relation to the assessment of Grain tendered for delivery at a CBH Site as are specified in clause 4.2 of this Schedule 4;
- 4.1.2 that if there is any disagreement over the assessment of Grain tendered for delivery it will select one of the methods specified in clause 4.2 of this Schedule 4 (if relevant); and

4.1.3 to be bound by both the process and the end result of the process.

4.2 Assessment Verification Methods

4.2.1 Infratec Re-assessment – this method involves re-performing the Infratec assessment and is only available if the Customer disputes the result produced by the use of an Infratec machine at the Site and that result:

- (a) is within 0.2% the target grade; or
- (b) in the case of colour is within 1 whole graduation of the colour target.

The Infratec re-assessment must be performed using grain from the initial sample bucket and, subject to the method in clause 4.2.4 of this Schedule 4, will be final for all parameters assessed by the Infratec (ie any previous Infratec parameter measurement will be discarded). The relevant load will then be graded in accordance with the re-assessed results.

4.2.2 Average System – this method involves a dispute over a defect identified by a sampler and is not available for results provided by the Infratec, Electronic balance, Agtator, Aerovac, Falling Numbers or any other objective assessment. The undisputed results from the first assessment are kept and the sampler will draw 2 new half litre samples from the initial sample bucket. These two new samples will be checked for the defect in dispute and the results for that defect in each of the three samples will be added together and divided by 3 to give a final result, subject to the method in clause 4.2.4 of this Schedule 4.

4.2.3 Unofficial Dispute – this method involves:

- (a) sending the defect under dispute to either the CBH district office or AGC for a final assessment and this method is not available for results provided by the Infratec, Electronic balance, Agtator, Aerovac, Falling Numbers or any other objective assessment.
- (b) the sampler placing the defect under dispute into a sealed bag which is then placed with the remainder of the half litre sample into a second bag, making sure all other defects removed are returned into the half litre sample contained in the second bag;
- (c) CBH storing the Delivery as assessed by the CBH sampler and your Grain Entitlement being adjusted (if required) so that it is in accordance with the assessment by CBH's relevant district Office or AGC (as the case requires) which result shall be final.

4.2.4 Official Dispute – this method is available if there is any dispute over an assessment provided that the Customer has not previously selected the method in clause 4.2.3 of this Schedule 4 and involves:

- (a) A new representative sample being drawn from the truck in the presence of the Customer's representative and the sample being divided into 3 equal sub-samples;
- (b) the Customer sending one sub-sample to the Western Australian government's Department of Primary Industry and Regional Development together with payment for the relevant charge;
- (c) CBH storing the Delivery as assessed by CBH's sampler and your Grain Entitlement being adjusted (if required) as assessed by the Western Australian government's Department of Primary Industry and Regional Development which result shall be final.

5 WEIGHING

5.1 CBH will weigh any Grain offered up for delivery by road on certified weighbridges. Grain can only be delivered by rail at a select number of CBH sites (due to the lack of appropriate equipment to receive grain by rail) and will be weighed using CBH's certified weighing equipment. CBH and the Customer may make alternative arrangements to calculate the weight of Grain being delivered.

- 5.2 CBH will provide the Customer with a record of weight received when its vehicle is weighed following completion of unloading and the Customer agrees that:
 - 5.2.1 it or its Agent will check and confirm that the information recorded is an accurate statement of the amount and grade of Grain delivered to CBH; and
 - 5.2.2 if the Customer or its Agent leaves the weighbridge without disputing the correctness of the weight determined it will be deemed to have accepted that the weight recorded is correct.
